Join ESTHER in a three-part community conversation series around faith, values and community. The first event will be in March (dates and locations in the left column) with locations in Appleton Neenah/Menasha, and Oshkosh to engage the community at the local level.

**What you can expect:** each event will begin with a potluck followed by a brief reflection and small group conversations about faith and values. You will walk away with a better understanding of your community and the people that live here, and have opportunity to explore your faith, values, and their connection.

We will announce the dates and locations for the next two parts in the series (summer and early fall) in the coming weeks.

**The event is free and open to the public.** We invite each household to bring a dish to share for the potluck.
